

Lasallians Worldwide Follow 5 Core Principles!

Faith in the Presence of God	Respect for All Persons	Inclusive Community	Quality Education	Concern for the Poor and Social Justice
<p><i>The presence of God becomes a living reality. Our daily experiences are immersed in God's presence and all is seen through the eyes of faith.</i></p> <p><i>Lasallians start everything by saying: "Let us remember we are in the Holy presence of God." and that is a reminder that God's saving presence in all our work and encounters.</i></p>	<p><i>Each human is a child of God filled with dignity and value. Hence mutual respect and all that comes with it – compassion, cooperation, collaboration, are a way of life in the Lasallian world. Lasallians treat one another just like how Jesus would have.</i></p>	<p><i>Lasallians are together and by association. Together as a community they educate with inclusion at the heart of it all, giving colour with acceptance and cooperation. They educate by association with other communities too.</i></p>	<p><i>Lasallian education is not only based on academic excellence but most importantly on forming people in their spirituality and responsibilities towards their communities and themselves.</i></p>	<p><i>There are various different poverties around, not only financially but those neglected, marginalized or enduring social injustice. Lasallians aim to help all those in poverty through different ways.</i></p>
